Creative Dental Technicians

Helping dentists smile

Every dentist knows the value of a good smile and at Bio Art Dental we understand the work a dentist puts into making one.

Dentists face many day-to-day challenges and stresses. Dentists and their clients have ever increasing expectations of service and delivery. Every case is unique. End results are critical. Bio Art Dental provides dentists with the right mix of quality prosthetic products, support services and competitive pricing to keep your clients happy and to help your profits grow.

Bio Art Dental brings a smile to dentists with:

- **S**ervice ethos – personalised and prompt
- **M**aterials of outstanding quality
- **I**ntegrated logistics ensuring prompt delivery
- **L**eading edge technology
- **E**xceptional craftsmanship and experience

At Bio Art Dental, we understand that the end result is critical to each client's self-esteem and to building your practice's reputation.

Prompt remediation of dental problems is the core of most dental work and Bio Art Dental's focus, while efficient service to the dental profession is our driving force. Bio Art Dental's quality systems, the latest technology and specialist advice essential for leading edge dentistry are yours to leverage as a competitive advantage.

Experienced and Reliable

Drawing on more than 66 years combined professional experience, Bio Art Dental is owned and operated

by three highly qualified dental technicians. Each director has trained at the state's leading public dental health agency, Dental Health Services Victoria (DHSV), and is actively involved in ongoing professional development in dental technology.

DHSV has appointed Bio Art Dental as its principal supplier of crown and bridge work. Our continued role working with DHSV's under graduates, general clinicians, post graduates and prosthodontists recognises Bio Art Dental's industry standing in precision crown and bridge work, technical proficiency, creativity and comprehensive range.

Customer Care You Can Count On

Beyond technical excellence, Bio Art Dental supports you with the essential practical details to make every case run more smoothly:

- One-on-one consultations with the clinician to select the ideal product and technique for your client
- Quality assured laboratory management for reliable service and delivery
- Free shade consultations in Bio Art Dental’s designated shade taking surgery
- Free cementation kits for porcelain veneers, inlays and onlays, Zirconia frameworks
- A reliable and speedy courier service ensures swift delivery.

Bio Art Dental is centrally located in Melbourne’s Ivanhoe and our very own reliable and efficient courier ensures the timely delivery of your restorative solutions.

Bio Art Dental has a commitment to a 10-day turnaround period for most crown and bridge work and supplementary products can usually be delivered in a shorter time frame. The turnaround period for implant work varies, depending on the complexity.

At Bio Art Dental we understand your reputation is built on word of mouth and we are passionate about our role in assisting you to keep your clients smiling.

For further information or a confidential conversation regarding your unique needs please contact us on 9499 4445 or email smile@bioartdental.com.au

“... Attention to detail and willingness to communicate and seek feedback ensures the end result is the very best for my patients.”

Dr. F.V. Benedetti, BDS, LDS, Dentist.
